

Dear Kayim,

We're happy to share some cool news from NASA with you! Here's a quick look at what's happening:

- SpaceX Crew-7 Return to Earth: You're invited to watch live coverage of the SpaceX Crew-7 returning (1) from the International Space Station! It starts on Sunday, March 10, at 11:55 a.m. EDT. Don't miss this big moment (2) on NASA+, NASA Television, the NASA app, or our website.
- SpaceX 30th Commercial Resupply Mission: Get ready for the SpaceX 30th commercial (3) resupply mission (4) with a special NASA webinar on Friday, March 8, at 1 p.m. EST. Learn about the hardware, tech demos, and science experiments (5) going to the International Space Station. Sign up for media access (6) here.
- 3. Star Formation Unveiled by James Webb Space Telescope: Check out amazing images taken by NASA's James Webb Space Telescope, showing the secrets (7) of star-forming region NGC 604 in the Triangulum galaxy. See the details of over 200 hot and massive (8) stars in their early (9) life stages, a rare (10) sight not seen in our Milky Way.

Stay tuned for more updates as we keep exploring space!

Best regards,

Paula Rupe

NASA Team
